Profile

Senior Software Engineer / SDE II with 5.5+ years of experience in full-stack and backend development, specializing in Node.js, React.js, Next.js, MongoDB, REST APIs, and AWS. Experienced in designing and developing scalable, production-grade applications, backend services, API integrations, and high-performance solutions. Hands-on experience in LLM integration, prompt engineering, RAG-based applications, and AI-powered chatbot development, with current focus on building GenAI applications using LangChain and Python. Strong problem-solving skills with experience working across the full software development lifecycle, from development and integration to deployment and production support.

Experience

Senior Software Engineer | WIPRO LTD | DEC 2025 – PRESENT

- Working on **enterprise-grade, large-scale production applications**, contributing to full-stack feature development, backend services, API integrations, and scalable application enhancements across projects for **Meta and State Street**.
- Contributing to **AI/LLM-powered application initiatives**, including LLM integrations, prompt engineering, and AI-driven features to enhance application capabilities and user experiences.
- Collaborating with engineering, product, and QA teams on **feature development, debugging, impact analysis, code reviews, and production support**, following Agile and modern software-development practices.
- Working with modern full-stack technologies and cloud-based solutions while focusing on **scalability, performance, maintainability, and production quality**.

Software Engineer | Formidium Technologies | MAY 2022 – NOV 2025

- Led and delivered a major project using Node.js, React, and MongoDB, resulting in a 20% increase in user engagement.
- Developed and implemented RESTful APIs with Node.js and Express, reducing server response time by 25%.
- Designed and optimized MongoDB schemas for a high-traffic application, improving query performance by 40%.
- Mentored junior developers, providing code reviews and training sessions that enhance team productivity and code quality.
- Collaborated with UX/UI teams to implement responsive and accessible web applications, improving user satisfaction scores.
- Refactored legacy codebase to modern JavaScript (ES6+) standards, reducing code complexity and improving maintainability.

Junior Software Engineer | Formidium Technologies | JULY 2021 – APRIL 2022

- Contributed to the development of scalable web applications using **Node.js, Express, React.js**, and **MongoDB**.

- Assisted in building modular and reusable front-end components with React, improving development speed by 15%.
- Participated in API integration and backend logic implementation, enhancing feature delivery timelines.
- Supported continuous improvement by investigating alternatives and presenting solutions for architectural design.

Graduate Engineering Trainee | Formidium Technologies | MARCH 2021 – JUNE 2021

- Gained hands-on experience in React.js for component-based development and state management.
- Performed debugging and cross-browser testing to ensure application consistency.
- Actively participated in agile ceremonies including daily stand-ups, sprint reviews, and retrospectives.

Android App development | Rawattech | JAN 2021 – MARCH 2021

- Android app development through React Native

Technical Analyst | Requin solutions pvt. Ltd | SEP 2020 – JAN 2021

- Java development

Education

B.Tech. Computer science - 8.2 cgpa | JUNE 2017-AUGUST 2021 | Jecrc University, JAIPUR, RAJASTHAN

12TH Disha Delphi Global Sr. Sec. School | Kota, RAJASTHAN

Skills & Abilities

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML/CSS, EJS, Bootstrap, jQuery
- **Backend:** Node.js, Express.js, Sails.js, RESTful API Development & Integration, GraphQL, Microservices
- **AI & GenAI:** LLM Integration, LangChain, RAG, Prompt Engineering, AI-powered Chatbot Development, OpenAI API
- **Databases:** MongoDB, Postgresql
- **Cloud & DevOps:** AWS, Docker, CI/CD Pipelines, GitHub Actions
- **Version Control:** Git, GitHub
- **Testing & Development:** Jest, Debugging, Agile Development Practices, Code Reviews
- **Other:** Third-party API Integration, Responsive Web Development

Projects

- **Pulse** – Cloud-based communication platform for **team and email campaigns** with **custom templates, SSO authentication, and real-time analytics** built using **Node.js, React, and MongoDB**. Integrated an **AI-powered chatbot using the RAG (Retrieval-Augmented Generation) approach** to deliver intelligent, context-aware responses and enhance user engagement..
- **Tax O Wealth** – Developed a financial services platform specializing in tax planning, wealth management, and financial advisory. Implemented **user authentication, financial planning tools, and a secure client portal** for seamless access to tax optimization strategies and reports.
- **CommonSubDoc.com** – Developed a collaborative platform with **user authentication, document version control, and real-time notifications** to streamline team productivity.

- [Sarvesh Art](#) – Developed a full-stack e-commerce platform for selling original Indian oil paintings and prints. Built customer-facing shopping flows including **product discovery, wishlist management, cart and checkout, payment gateway integration, email workflows, and responsive UI**. Also implemented a rule-based Art Assistant to help visitors with common queries around artworks, pricing, commissions, shipping, and workshops.
- [AltsMarketplace.com](#) – Developed an **e-commerce platform for alternative investments**, enabling users to trade niche assets like collectibles, art, and rare items.
- [SyncPath Consulting](#) – Developed a fully responsive and dynamic single-page application for SyncPath Consulting, showcasing the company's services in Salesforce consulting.
- [Lusora.in](#) – Developed a premium mineral water brand website with a clean, responsive UI to highlight products and brand story. Focused on delivering a seamless user experience across devices to enhance brand presence in the FMCG space.
- [WellnessHerb.in](#) – Developed a wellness platform using React, Node.js, and MongoDB with Calendly integration and payment gateway support. Delivered a clean, responsive UI for smooth user experience and easy appointment booking.
- [SGB Industries](#) – Developed a responsive React.js website for SGB Industries, featuring product showcases, a mobile-friendly menu.
- [Avocsas](#) – Developed a comprehensive platform offering Salesforce security and development services, including AI packages and AppExchange development, to enhance business operations.
- [Ecogrocer](#) – Developed an organic e-commerce platform using React.js, Node.js, and MongoDB, providing a seamless shopping experience for organic products.

Certificates

- **Claude Certified Architect – Foundations** — [Credential Link](#)
- **AWS Partner: Generative AI Technical** — [Credential Link](#)
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** — Oracle (Oct 2025) [Credential Link](#)
- MTA: Software Development Fundamentals | Microsoft | [Credential Link](#)
- AI Associate | Salesforce | Issued Dec 2024 | Credential ID 5500887
- AI Specialist | Salesforce | Issued Dec 2024 | Credential ID 5501100
- Automation Anywhere Certified Advanced RPA Professional (V11.0)
